What can you do?

You can plant a tree or grow a garden. Plants help to keep the air clean.

Trees are beautiful, too!

What can you do?

Recycle cans and bottles.

In your classroom, use both sides of paper and use the scraps of paper to do art projects. Paper comes from trees, and we can save trees if we can use less paper.

What can you do?

Help keep the Earth beautiful by keeping your yard and your school playground clean.

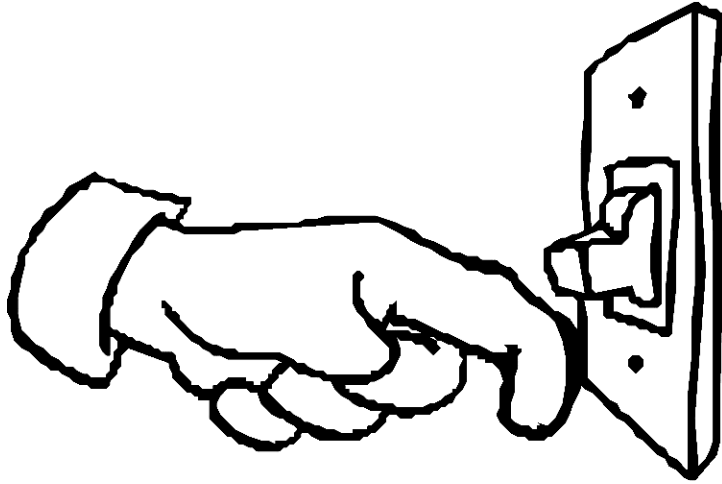

Never litter, and help to clean up your part of the world. Litter is ugly.

What can you do?

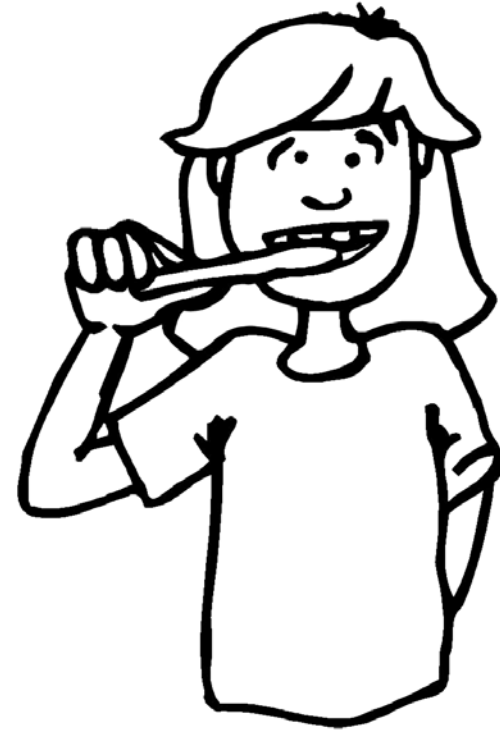

Sometimes you can ride your bike or walk instead of riding in a car.

Maybe all your family can go for a walk or a bike ride!

What can you do?

Turn off the lights when you leave the room, and turn off the radio and TV when you're not using them.

What can you do?

You can save a lot of water if you just turn the tap off while you're brushing your teeth.
