

Dear Jean,
Oh how eager I am every time I see Primary Success in my inbox to open it up and see what exciting things it contains! I really appreciate your newsletters, freebies, wise words of advice, useable ideas, **links** as well as the amazing curriculum I have purchased. I am an experienced teacher but I still learn many new things as well as being reminded of other important things. Thank you so much!! J.A.

We have ordered from you many times before. Our teachers just love your materials! B. S., AB

Your publications have made a huge impact on my teaching. P. M., Saskatchewan

The materials received are awesome! T. D.

Thank you so much! We are feeling much more prepared for the year now! It is unbelievable how much we rely on your resources! My first year teaching Grade 1, a teacher handed me a huge pile of Primary Success resources and said, "Start with these." It was the kindest and best advice ever! S.S.

I have loved using your resources! You have developed amazing materials that are so realistic to use! I have recommended them many times to other teachers.

I have ordered your science and socials resources and LOVE them. They are instant lessons, with little prep and totally suited to the grade and curriculum. Just thought I'd add more positive input to your great programs!!! M. M.

I have used your materials with great success. Fabulous resources! W. G.

Thank you! As usual, the resources are so helpful in my teaching. I have many of your books and I get most of my best ideas from them. I don't remember how I heard of your company but I'm glad I did! D. R., Ontario

Just want to let you know how much I enjoy your materials. They make teaching so much easier! P. N., Calgary, AB

Just a little note to say a very heartfelt 'THANK YOU' for Primary Success. I tell any new colleagues about your wonderful selection of resources! H. M.

About Math Success Kindergarten:

Our Kindergarten teacher says this is the best laid-out program for math that she has seen. The Kindergarten teachers are planning to spend ProD time getting familiar with it and currently it is in play in Kindergarten classes for assessment. **Thanks!** G.K.

..... a big **thank you** for the kindergarten math program. I absolutely love it and have recommended it to all the K teachers in my district! I love that I'm easily covering the curriculum and that you have all the materials right there. A big thank you for this wonderful product! Your biggest fan..... F. W., BC

I have found your resources the most 'user friendly', hands-on, practical advice for teachers I've see in my long teaching career. Thanks for all your help! B.B.

I placed a large order just before Christmas last year, and I'm sure glad I did. The materials are invaluable. I wish I had heard about your publications earlier so I wouldn't have had to purchase so many other not-so-useful material! K. H.

I have loved every publication of primary subjects I have bought from you!you have done a tremendous job of these publications. I own many resources from all over and these are the most valuable to me. Thank you, thank you, thank you for all you have given to us primary teachers! J. S.

Your materials are WONDERFUL! D.G., AB

Thank you for creating and sharing such wonderful materials. I have purchased the reading programs in the past and I consistently use them in the classroom. A. H., ON

I love using your resources! I am impressed with how quickly the students were able to read using the reading programs! K. P., AB

I have taught for years and your materials are the best I have ever used! T. T.

I have been teaching for 14 years and I have never had a group of Grade 2s come this far in math ever. I totally love this program! J. H.

I can't thank you enough for having such wonderful resources! S.W.

The resources that we purchased last year were a big success! We have a new Grade 1/2 teacher, and she has just loved them, especially the reading, phonics and math. Keep up the good work! M. R.

I do LOVE your resources, and my students feel so much success when they are able to read the controlled vocabulary books. Thanks you for creating them! J.D.

I love the little books in Read Through the Year! They are just awesome! S. M.

I absolutely adore the homework calendars. They are exactly what I wanted and I have been very pleased with them. R. H.

Keep up the wonderful work you are doing! You are filling a HUGE need! R. P.

Thanks you for your excellent publications and the great freebies! I have really enjoyed them and use so many of your practical ideas. G. T.

I think your products are wonderful. Thanks for providing such valuable and reasonably priced products - they are just great! S. B.

I don't think there is an early primary class in our district that is not using one or more of your programs. Thanks you for all the hard work! W. D.

Thank you for your life-saving books! D. J.

The Social Studies book is just awesome! I love it and it is totally relevant and it will save me so much time finding resources and activities for this. It is very thorough and the lessons come with inspiring and new ideas. Y. C.

Your ideas make me so excited to teach! B.R,

I just want to say I really appreciate the products you develop. I have found your products to be of such high quality! J.T.

Thank you for the Calendar for my next years class. I have noticed that the students who complete three to five of the activities a week are much stronger in terms of academics. I believe they are safer also as they tend to know their names and addresses. Many of the children learn their phone numbers also. This is probably preaching to the converted but a would highly recommend the Calendar Activities to Primary teachers.

I just wanted to update you on our writing in our classroom. I have purchased your Grades 1 and 3 writing programs and I teach a Grade k-3 class. I have been teaching both programs and my students are really LOVING our writing lessons. I rave about your writing program. I also have noticed a big change in the students spelling since I have become more strict on proper spelling. You are doing an awesome job and keep up the amazing work! Also, from me, a very happy and confident teacher who feels she is starting to really grasp how to teach writing with your guidance. I just wanted to thank you again! I am slowly becoming a primary success teacher with your Socials program, writing, and now homework calendars! S.L.

Jean...the quality of your books is outstanding! I use your Science and Social Studies, both grade one and grade two editions continually. I've been in the biz for a long time and I think I'm reasonably good at what I do, but your materials make a busy teacher's life SO much easier, so thanks.

I have the Social Studies books for both grade 1 and 2. I also have the Math book for grade 2. They are both excellent, easy to use and pertinent to the curriculum. This year I am getting the most out of the math book. I changed programs to specifically use yours because of its format and because I found that my students in the past were not getting enough number fact practice. S.D.

The PE book is well organized, easy to follow, and covers the BC curriculum very well.

I love the freebees. Our whole staff uses them and we have turned our student teacher from V.I.U. on to your website as well. The little books are perfect for home reading. I personally have been using the math program about 8 years. It blows Math Makes Sense out of the water for developing strong confident math students. L.L.

I have a number of your resources and they are used in some form or another every day in my classroom. On a scale of 1 to 5 they are a five. The activities are reasonable, kid-friendly and curriculum appropriate. They are easy to use, and the predictable format and lesson suggestions make them easy to include but also to adapt if necessary. J.P.

I recommend Primary Success to every teacher I know, especially new teachers. You don't need to advertise as word of mouth is your best recommendation. The resources are teacher friendly...written by teachers for teachers! How do you get better?

Thank you very much for your resources. They have played an important role in the development of how I present the Kindergarten curriculum in my class.

I love your materials! They are easy to read and use and there is something for everyone! Thank you, Jean, for all of the amazing work you do for all of us. It helps to make our jobs so much easier.

Thank you so much for providing such Amazing, Wonderful, Practical, Useful, and Friendly resources. Such a pleasure to use and share. I am now "Armed and Ready" to teach from Kindergarten to Grade 3!

I continue to use your Successful Sight Reading program with my ESL and Learning Support students. The kids love it!
