Spring is Here!

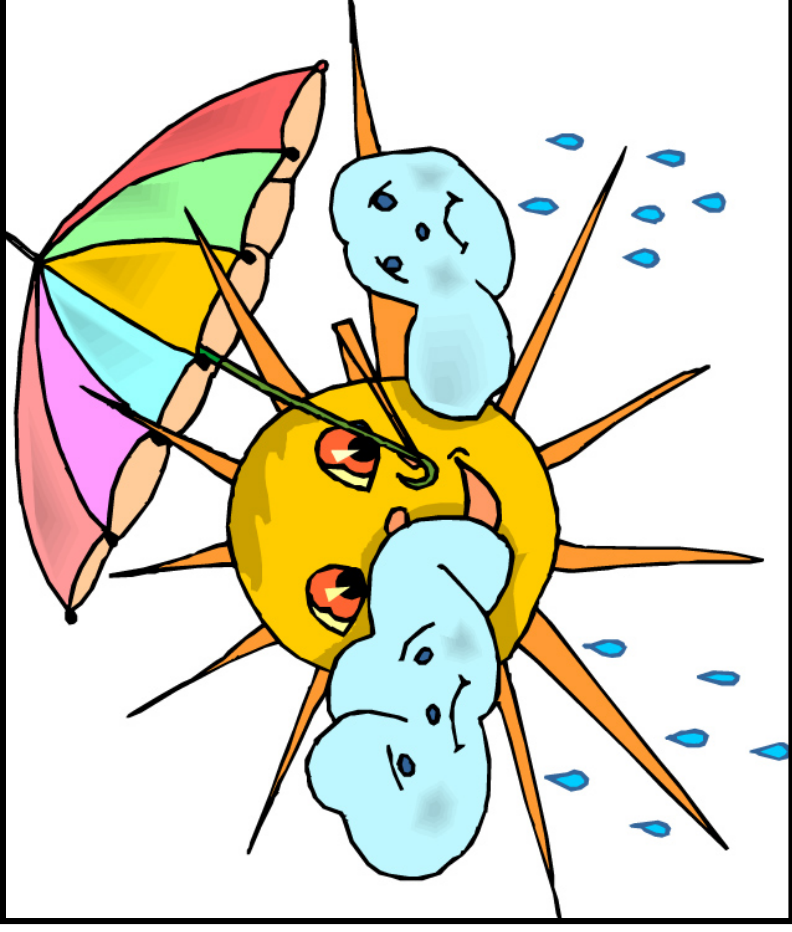

Little plants grow in my
Mom's garden.

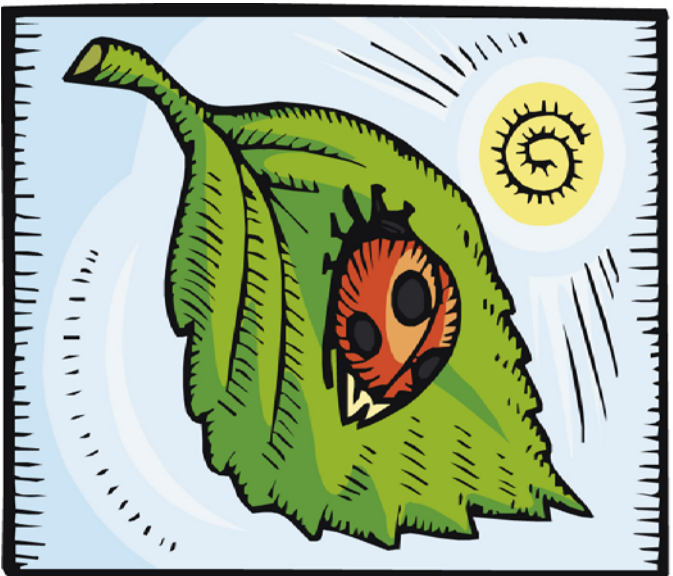

The trees have blossoms
and pretty flowers are
in the garden.
I love spring and spring is
here!

The birds come back in
the spring.
I like to hear them sing!

They grow in the warm sun.
They like spring rain, too.

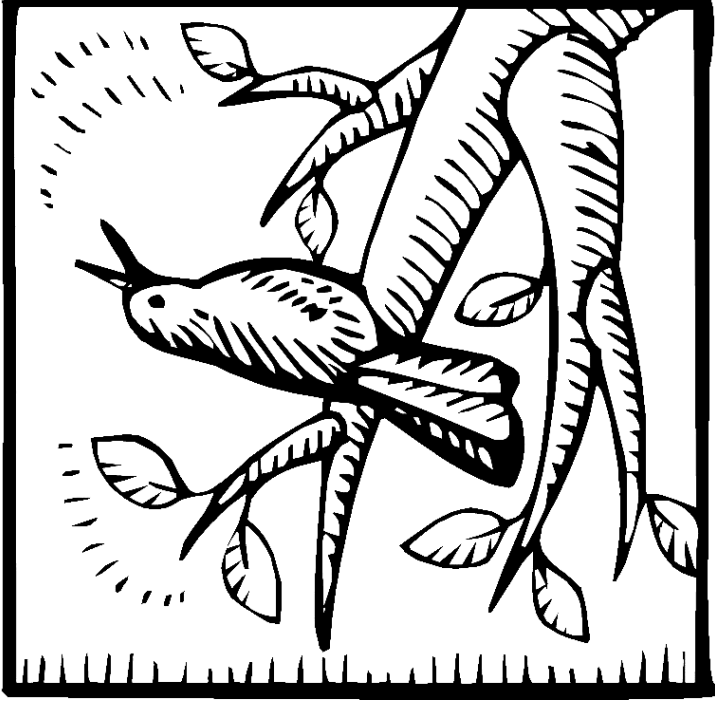

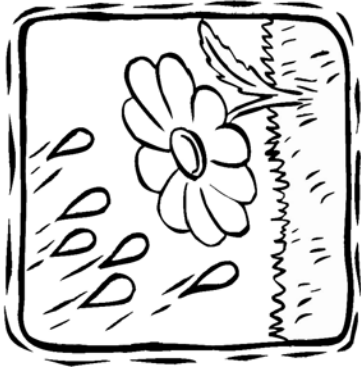

Insects like the warm sun and
the new plants.

In the spring I go out in the
yard and look for
caterpillars and bugs.

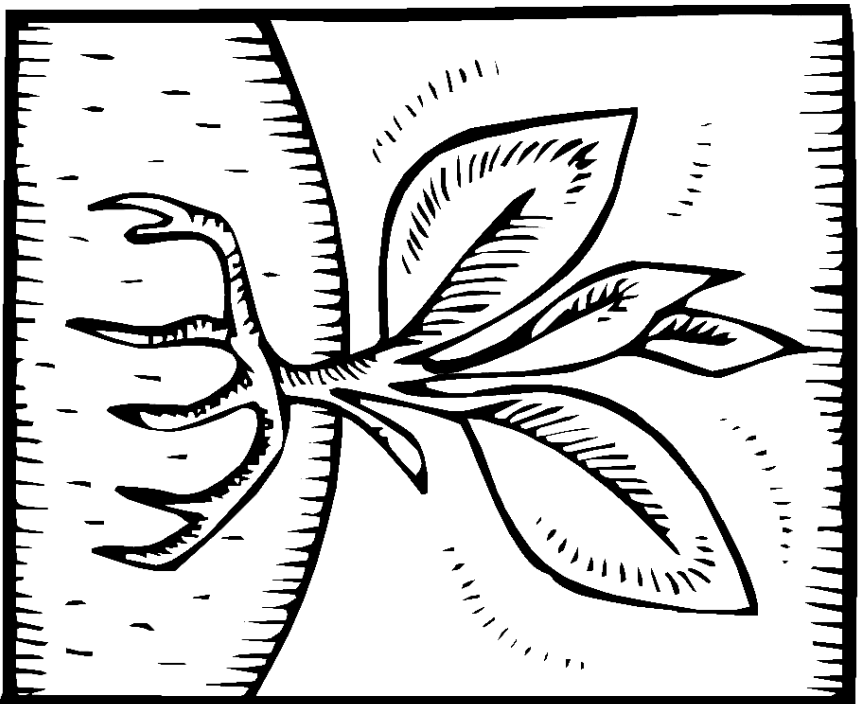

New green leaves come on
the trees.
